

## DSC 2026 EUROPE VR

DRIVING SIMULATION & VIRTUAL REALITY CONFERENCE & EXHIBITION

The DSC Conference gathers driving simulation specialists from the industrial and academic communities as well as commercial simulation providers. This 25<sup>th</sup> edition follows that of 2025, held in Stuttgart, in an only onsite version with 250+ participants on site and 35+ exhibitors. Both physical and remote participants came from all around the world from more than 20 different countries of Europe, America and Asia.

**This year's edition will be held in Antibes from September 16<sup>th</sup> to 18<sup>th</sup>, 2026.** Topics will include state of the art in driving simulation technology, research and developments, extended with progressively merging XR and AI developments. This year program will also give an enlarged place for simulation tools for autonomous and connected

vehicles along with advanced driving assistance system (ADAS) applications. Human factors and motion rendering nevertheless will remain the now traditional axis of the conference as well as XR based simulation technologies.

Please note that there is a **separate call for Product Solution papers. The deadline for abstract submission is set to December 31<sup>st</sup>, 2025.** You are welcome to the DSC 2026 Europe XR Conference organized by the Driving Simulation Association, Arts et Métiers ParidTech and the Gustave Eiffel University, with the support of Renault, ASAM, SIA and Laval Virtual, on September 16<sup>th</sup>-18<sup>th</sup> !

## ABSTRACT SUBMISSION

Detailed information about submission procedure and review process will be provided on the conference website: <https://dsc2026.org/guidelines-for-authors//> [dsc2026.org/review-process](https://dsc2026.org/review-process)

## PROCEEDINGS

Final accepted papers and poster abstracts will be published in the Proceedings of the DSC 2026 Europe Conference.
